
Kamasutra Malayalam Translation

[Download](#)

the book of vatsyayana. the kamasutra is the most famous work of ancient indian literature, which treats of love. it is a collection of carnal songs called the kirtanas, or love poems, which form the chief ingredient in the erotic literature of india. the book is in two sections, one of the songs and the other of the moral teachings. the general purport of the book is to teach the art of love and sexual pleasure to men, and of the duties of the wife to the husband. the songs form an important feature of the book, and they are dedicated to a famous student of vatsyayana, the author, who says: "to the sweet-voiced, courteous, and well-disposed sudas, my teacher, who has made me proficient in the art of love." the songs are selected from the vatsyayana kirtana, a collection of songs, of which vatsyayana's name is also the title. the vatsyayana kirtana is itself a collection of songs, and some of these are attributed to others. the songs are of various classes, from the general songs on love and coition, to the so-called kirtanas or erotic songs, which are more specialized. in india, where the culture and love are so closely interwoven, there are many songs relating to love and to the art of love. the songs of the kamasutra have been rendered into various languages, and these

renderings have been written in different styles. the kamasutra renders a complete picture of the evolution of love in the world, from the rude beginnings of coition in animal and vegetable life, and the slow development of love in the human race, to the high aims and ideals of the religions of the world.
