Matt Toth, economic development director for Urbana, said a property owned by a company that is constructing a campus for the Assisting Inpatient Addiction Treatment Center, located on College Avenue, was purchased last fall for \$14.5 million. The property is located near the intersection of College and Garfield Avenue. "The company is constructing the facility and does not want to enter the city until they're ready to move in," Toth said. "They bought the property with the intention of eventually occupying it." Toth said the city is assisting the company with obtaining financing, planning permits and the other associated work necessary to complete the purchase and to get the facility underway. "This is a very highly regarded facility," Toth said. "It's been in operation for a number of years." Toth said the property is valued at about \$13 million, and the purchase price includes all the improvements. "When you look at the property, it's nothing exceptional," Toth said. "But the value of the site itself - the value of the land - is greater than the value of the building." Toth said the property is located at the western edge of the city, near the Garfield Business Park, and the new facility will bring a new dimension to the development of this area. "It's a really good facility," Toth said. "They're very much in demand with the kind of patients that they're getting." The facility was originally built in 1999, and is used to treat inpatient substance abuse patients. "It's always a good thing when we can help a company like that move into the city," Toth said.
