□ BazaarBuilder is a free shopping cart for your website. It's completely free to use, and will allow you to manage your website from a completely secure online control panel, and it'll notify you of orders by e-mail. □ You can install this shopping cart software on your website with just a few clicks, and you can start selling your products immediately. The control panel is easy to use and features a range of handy tools. You can use it to add, edit, remove and list your products, and to view your latest orders and sales. □ For more general information and guidance on how to design and build an ecommerce web site with a suitable shopping cart system visit our ecommerce guide and information section. □ BazaarBuilder integrates well with websites of many different types, and can be made to fit seamlessly into your own website's design. It can be set to appear in the standard way on home pages, in a "drop down" menu or in a page of its own. □ If you're planning to have your e-commerce website hosted on your own server or on a reseller, you don't need to be concerned about running a separate database server. BazaarBuilder's e-commerce software does everything from your own server, and is ready to start immediately. □ You can add as many products as you like, and you can customise the layout and the type of information that you display on your website. It's not a case of limiting you to just one type of product. □ The control panel is completely secure, with completely unlimited login, password, and e-mail options. □ You can manage up to 500 products, and up to 50,000 orders at a time. □ BazaarBuilder provides a host of handy tools, from reports to sales tax calculations. □ When you're ready to sell, simply add your products to your BazaarBuilder shopping cart, and start adding information about your products. You can choose to sell everything at once, or only specific products, in any price range. □ BazaarBuilder's sales tax calculator is probably the most sophisticated in existence. There are just about 100+ ways of charging for sales tax. BazaarBuilder's unique geographical region builder allows you to apply sales tax based on your own regions. You can specify your own regions, or use Parcelforce or UPS to calculate shipping costs
